Fred shared that we have 90 members.

There was no New Business.

Old Business-

Bonnie shared that the board had decided against pursuing a lake level minimum due to a lack of manpower.

Vern shared that he had been taking pictures of the level at the gauge and at the boat ramp.

Kathy Mc Gonigle asked how the lake level could be regulated. Bonnie shared that the junior water users could not take water when it fell below the minimum.

Tom Wolfe said that he had two new people and that they had not found much milfoil, but would try again soon. What they found was in the South end of the lake. Clean Lakes got the bid. Tom added that they are looking for alternative funding to combat curly leaf.

It was mentioned that the lake host station could sell boat stickers. And that 39 muscle infested boats had been found thus far this year.

Joe is back at the lake host.

Asian clams were found at Hope. We may look into specimen boxes from Soil Conservation, for anything that we find.

And they are planning on running more culverts in the washout area.

Clean Lakes shared That they could create a nutrient load map and bathometric map at treatment time. That their contract was through the state (NPDES and Clean Water Act). ISDA. They would communicate their timing on treatment.

The Sheriff's office had been contacted about the water ski course which was removed. Ron Rehas (sp?) of the Marine Division will be checking the lake... among other things that boats have PFD and whistles.

Next month elections.

DEQ will run "free" tests, one this month and one next. Vern moved and Drew seconded to cover the \$105/month for the tests for 6 months.

Bonnie moved and Vern seconded that Janet be reimbursed for Idaho e coli testing of Johnson's and Westmond Creek. For \$20.00.

It was suggested that some meetings be held on Saturdays.

Herman, Cary and Bonnie were thanked for all of their work.

Bonnie moved and Cary seconded for the meeting to adjourn at 8:04.

Respectfully Submitted, Janet Conlin
